June 3, 2009

Are you making plans to visit the Alaska Kenai Peninsula this year? Now is a great time to be in Alaska. Marine tours, bear watching, kayaking, hiking, wildlife viewing and other adventures are waiting for you. If fishing is included in your interests, this is your time to catch world class halibut. Last weekend we took some of the family out on the water off Anchor Point. We landed lots of cod and halibut, including the halibut pictured here with me and two of my Alaskan granddaughters.

An interesting event that is occurring at this time is the calving of the moose. We have a cow moose on our property that just dropped a single calf - photo below.

Please visit our website and call **(866) 286 0576** or email [alaska@bearpawadventure.com](mailto:alaska@bearpawadventure.com) to reserve our **Wise Old Hunter Lodge or the Moose Cabin**. We offer some of the best and most unique lodging on the Kenai Peninsula. Some adventure tour operators are offering special rates this summer due to the general world economy, and lots of folks are here taking advantage of that. Don't miss this opportunity. Give us a call and let us know what you are looking for and we will be happy to help you find a great deal for your Alaska Adventures. Come to Alaska - the good times are here now!
